

What is a corvid?

A corvid is a family of birds also known as the crow family.

They are some of the smartest creatures in the world! Corvids are known for using tools, playing games, and even recognizing themselves in a mirror.

The 19 Corvid Challenge is geared to get you and your family outside in your neighborhood and to learn more about these unique birds that live in the city habitat. Happy exploring!

What's the difference between corvid and covid-19? Are they safe?

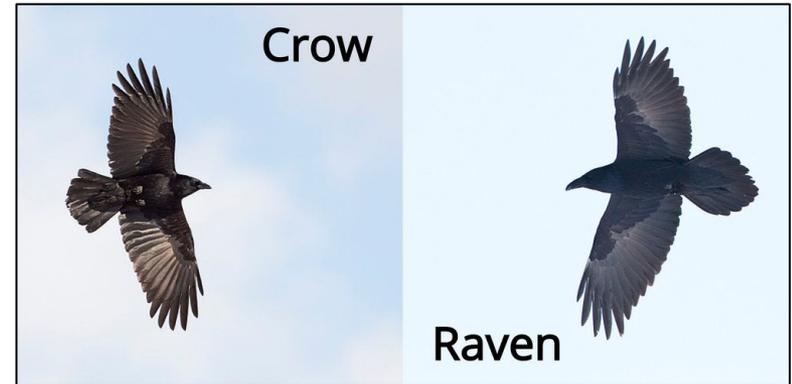

The difference is in the "ARRRRR". A corvid is a kind of bird. You can keep them safe by NOT feeding them. Covid-19 is a sickness going around right now. You can keep yourself and family safe by washing hands and keeping a safe distance.

What's the difference between a raven and a crow?
